4. FIRST AID MEASURES

Description of necessary first-aid measures

Eye Contact  Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Obtain medical attention if irritation persists

Skin Contact  Wash off immediately with soap and plenty of water. Get medical attention if irritation develops and persists.

Inhalation  Move to fresh air. Get medical attention immediately if symptoms occur.

Ingestion  Rinse mouth. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Drink plenty of water. Consult a physician.
Protection of First-aiders

Use personal protective equipment.

Most important symptoms/effect, acute and delayed

Irritation

Indication of immediate medical attention and special treatment needed, if necessary

Treat symptomatically.

Notes to Physician

Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media

None

Specific Hazards Arising from the Chemical

Avoid generating dust, under certain conditions may cause respiratory irritation. Thermal decomposition can lead to release of irritating and toxic gases and vapors.

Explosion Data

Sensitivity to Mechanical Impact

None.

Sensitivity to Static Discharge

None.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Appropriate engineering controls

Engineering Measures
Provide local exhaust ventilations system. When there is a potential for exposure, an emergency eyewash and safety shower should be provided within the immediate work area.

Individual protection measures, such as personal protective equipment

Eye/ Face Protection
Wear safety glasses with non-flexible side shields or chemical goggles.

Skin and Body Protection
Hands and Feet:
Wear appropriate protective non-leather protective gloves and boots. Chemical protective gloves and boots such as PVC, Neoprene, or Heavy Nitrile are recommended. Leather products do not offer adequate protection and will dehydrate with resultant shrinkage and possible distruption.

Body:
Wear appropriate protective, impervious clothing.

Respiratory Protection
A respirator is not indicated under normal operating conditions. Use of a NIOSH - approved respirator (N95 or greater) should be based on the presence of nuisance dusts.

Hygiene Measures
When using, do not eat, drink or smoke. Remove and wash contaminated clothing before re-use. Provide regular cleaning of equipment, work area and clothing.
